

Python - 100 Interview Questions

1. What is Python Basics?
2. What is Variables?
3. What is Data Types?
4. What is Operators?
5. What is Input Output?
6. What is Comments?
7. What is Keywords?
8. What is Identifiers?
9. What is Type Casting?
10. What is Strings?
11. What is String Methods?
12. What is Lists?
13. What is Tuples?
14. What is Sets?
15. What is Dictionaries?
16. What is Functions?
17. What is Arguments?
18. What is Return Statement?
19. What is Scope?
20. What is Lambda?
21. What is map()?
22. What is filter()?
23. What is reduce()?
24. What is Recursion?
25. What is Modules?
26. What is Packages?
27. What is pip?
28. What is Virtual Environment?
29. What is File Handling?
30. What is Exception Handling?
31. What is OOP?
32. What is Class?
33. What is Object?
34. What is Constructor?
35. What is Inheritance?
36. What is Polymorphism?

37. What is Encapsulation?
38. What is Abstraction?
39. What is Method Overriding?
40. What is Method Overloading?
41. What is Iterators?
42. What is Generators?
43. What is Decorators?
44. What is Context Manager?
45. What is Comprehensions?
46. What is Regular Expressions?
47. What is JSON?
48. What is CSV?
49. What is NumPy?
50. What is Pandas?
51. What is Matplotlib?
52. What is Seaborn?
53. What is SQLite?
54. What is MySQL?
55. What is Threading?
56. What is Multiprocessing?
57. What is Asyncio?
58. What is Garbage Collection?
59. What is Memory Management?
60. What is GIL?
61. What is PEP8?
62. What is Docstrings?
63. What is Assertions?
64. What is Logging?
65. What is Unit Testing?
66. What is Pytest?
67. What is Collections?
68. What is Deque?
69. What is Counter?
70. What is defaultdict?
71. What is NamedTuple?
72. What is Dataclass?
73. What is Enums?
74. What is Dates?

75. What is Datetime?
76. What is OS Module?
77. What is Sys Module?
78. What is Random?
79. What is Math?
80. What is Pathlib?
81. What is Requests?
82. What is API?
83. What is FastAPI?
84. What is Flask?
85. What is Django?
86. What is Serialization?
87. What is Pickle?
88. What is Joblib?
89. What is Environment Variables?
90. What is Command Line?
91. What is Packaging?
92. What is Version Control?
93. What is Git?
94. What is Performance?
95. What is Optimization?
96. What is Shallow Copy?
97. What is Deep Copy?
98. What is Mutable vs Immutable?
99. What is List vs Tuple?
100. What is Set vs Dictionary?
